MONTHLY MINE PAYROLL OVER $192,000

Work Resumed On Famous Old Mines Of Nevada County

A review of mining developments in Nevada county since May 19, when the last mining development issue of the Nevada City Nugget was published, reveals an increase in the number of men employed, but not so large as might have been expected from the rapid gains of the month before. The reason for this is due chiefly to the fact that one or two of the larger mines have decreased their working forces pending shaft sinking or other work that necessitated shaft use for hoisting waste. las tmonth. On the other hand, operations have been started, several properties that last month could not be listed except as prospects. The number of men employed therefore covers a wider area and logically denotes an increase in development work all along the line in Nevada county. These "new" properties listed before in most cases are in reality many old properties, some of them with new names, which mining engineers expect to make profitable under modern mining conditions with all the latest equipment which science and engineering have placed at the disposal of the mining industry.

Among these properties, upon which work has been resumed after a lapse, in some cases, of many years are the Ragon, Iowa Hill, Lucky Strike, Madam Queen, French Corral and Grass Valley Premier.

MINE	QUARTZ OR GRAVEL	LOCATION	NUMBER EMPLOYED	PAYROLL

TOTAL			1523	$192,769

Owing to the fact that Nevada County is regarded as one of the "white spots" on the map of the United States, a large number of unemployed men is being attracted here. While approximately 1500 men are steadily employed in Nevada County mines, there are hundreds of "rustlers" daily applying for employment at the mines who have absolutely no chance in the world for a job. This is a warning to those who have no means of subsistance NOT to come to Nevada County looking for employment.

CONSOLIDATED GOLD

The Consolidated Gold Mines of America, Ltd., has undertaken the development of 640 acres of mineralized ground in the Grass Valley district.

Its personnel contains the names of many prominent men. Among them are: W. J. Loring, internationally known engineer and former associate of ex-President Hoover. His associates are Arthur D. Foote, under whose supervision the North Star mine of Grass Valley produced some $35,000,000; his son Arthur B. Foote, at present engineed for the North Star company and chairman of Governor Rolph's committee on mining, and Charles E. Clinch, former mayor of Grass Valley and director of the North Star mine.

Arthur B. Foote will have active charge of Grass Valley operations, while M. J. Kiely, at one time in charge of Tennessee mine at Chloride Arizona, and later consulting engineer for mining interests in the south west, will be superintendent.

The company is incorporated under Missonri laws and certain Kansas City capitalists are interested. While the main office is in Los Angeles, plans are to build an office in Grass Valley.

PHOENIX

The Phoenix mine below Grass Valley which lately passed to the management of San Francisco, Pebble Beach and Pasadena men, is in line for deeper development.

A contract was let recently to Glennon and Bierbaum which calls for sinking the 160 foot shaft to a depth of 00 feet.

There are twelve men employed at the Phoenix mine with T. S. Davey as superintendent of operations.

S. Kutchar of Grass Valley is the owner of the property.

At the 160 foot level an eight inch vein of promise has been opened.

The Phoenix mine property is on the main power line into Grass Valley and is well equipped.

SPANISH

A cyanide unit is being added to the flotation plant at the Spanish mine above Washington, according to James Bradley, general superintendent.

Plans are to start milling ore about the 15th of July at about half capacity or 50 tons a day.

During the next few years they expect to use the cyanide process only in treating the gold-silver ores.

An aerial tramway, 8000 feet long, is under construction and will be used to bring the ores from the mine to the mill.

There are nineteen men employed at the property.

F. W. Bradley, of San Francisco, is the owner and Worthen and P. R. Bradley, also of San Francisco, are the general manager and consulting engineer respectively. At the property, John E. Pomeroy is in charge of mine operations, while Bert Harden is mill superintendent.

SPRING HILL

The Spring Hill Gold Mines, Inc., between Grass Valley and Nevada City, is sinking its shaft another 200 feet which will give a depth of 700 feet on the incline.

Under the direction of H. R. Plate, engineer, 1200 feet of drifting has been completed at the 500 foot level and a vein of better than two feet opened in the east territory. A big fissure runs thru the property for 2400 feet. The thrust fault cuts the serpentine and diabase and on this fissue quartz deposition has occur-

(Continued to page 8)

FINDS NO NUGGETS BUT ONCE IN A WHILE PICKS UP A DIME

At the stage office at John Muscardini's on Broad street at seven o'clock Tuesday morning, as Steve Mettodda was loading supplies on the Graniteville stage which he operates, a well dressed elderly man, a passenger, seemingly from the east was quite interested in our city.

This stranger was watching J. Eilerman, who was sweeping the streets previous to flushing out the gutters, and he innocently inquired, "Do you ever find any nuggets when you are flushing the streets?" John laughingly remarked, "No, but I found a dime one morning."

NEVADA CO. TAX RATE TO DROP IF PROP. NO. 1 WINS

County Assessor J. M. Hammill has given to the Nevada City Nugget a statement showing in figures just how much Proposition No. 1 on the ballot next Tuesday (June 27) would, were it adopted, swell the assessment roll, if the operative properties of public utilities and railroads were added to that of the county. With a larger assessment roll, Assessor Hammill states, it would be possible to greatly reduce the tax rate in this county.

At present the assessed valuation of public utilities, exclusive of railroads, in this county is $1,760,080. County assessors still have the duty of assessing public utility properties even though no tax revenue from these sources has been collected by counties since 1910.

The assessed valuation of the railroads in Nevada County, which consists of 30 miles of Southern Pacific tracks and operative properties, and the Narrow Gauge properties, amounts to $1,088,528.

Together the assessed value of the rairoads and the public utilities, whih now pay nothing into the county treasury, but do pay state taxes, amount to $2,848,608. Add this sum to the $6,250,000 assessed valuation of Nevada county property which now bears all the burden of county government costs, and the grand total is approximately $9,,150,000.

An assessment roll of $9,150,000 for Nevada county would make a very substantial cut in the tax rate on all real estate and personal property, Mr. Hammill declares.

VAN SLYKE ARRAIGNED TODAY, MANSLAUGHTER

The case of Oll Van Slyke, 28 accused of killing Jack Thomas in a quarrel at the Coffee Cup cafe on Commercial street Thursday morning a week ago, has been set for this morning. He will be charged with manslaughter.

CAMPTONVILLE GRADUATES

CAMPTONVILLE, June 19—Two local youths are graduating from high schools this week, former students at this place. William Groves received his diplima from the Auburn high school last week, and J. Joubert graduates from the Sacramento high school Thursday. Both boys are graduates of the local branch of the Marysville Union high school, and have completed their high school education with high honors and due credit to the local school.

Miss Reita Lauer of San Francisco is spending this week with Mr. and Mrs. Leland Smith in Nevada City. On Thursday thep enjoyed a motor trip to Lake Tahoe.

Placer Mine Act Can Benefit Nevada County;-Here's How

By JAMES D. STEWART, E. M.

Senate Bill Number 480 was introduced by Senator J. L. Seawell January 25, 1933. This bill is the result of a lifetime of general experience in Placer Mining by the writer ,and eight years intensive study and battling for legislation that in his belief would be of the greatest benefit to that industry.

He has had the advice and aid of Hon. Harold C. Cloudman, Hon. J. M. Allen, Hon. J. L. Seawell, Hon. Jesse M. Mayo, Fred B. Wood's efficient Legislatative Bureau in the legislature and scores of engineering friends, not to forget his better half, all of which is gratefully acknowledged at this time.

Appreciation is also expressed to Governor Rolph for his careful study and clear understanding of the bill and recognition of the author in the presentation to him of the pen with which the bill was signed.

HOW TO FORM DISTRICTS

First of all this Placer Mining District Act is patterned in a large measure, after the irrigation District Act.

A group of placer miners owning their several claims, may get together and draft the preliminary plan of organizaztion. The plan is set forth in a petition to the Board of Supervisors of the county in which the properties to be included in the district are situated, asking them to set a time for a preliminary hearing to determine if the law governing the matter has been properly followed.

The supervisors then direct the county surveyor or engineer to ascertain if the boundaries are proper etc.

DISTRICT CONDITIONS

All the placer mines of the district must be on a common watershed or storage basin for the storage of tailings.

Much of the preliminary organization work is routine and is similar to the formation of an Irrigation District.

After the district is formed and ready to function, its powers are the vital features of the Act.

Its board of directors shall have the right to manage and conduct its affairs; to make contracts, to enter on any lands necessary for the success of the project for the purpose of making surveys or investigations.

This covers the storage of water for the mining operations, the building of canals, flumes, pipe lines and necessary acqueducts for the conducting of the water to the poperty; to acquire lands and build dams for the storing of the tailings or debris; to acquire rights of way for the passage of water or tailings from their source to the final destination.

EMINENT DOMAIN

The act provides for the right of eminent domain so that where necessary, lands vital to the project may be acqired by condemnation.

Mine owners only vote at any election. This act provides that no matter how small his holdings, each mine owner has one vote and no matter how large, only five votes. The vote is based on the assessed valuation as evidenced by the Co. Assessor's books. One vote for each $5,000.00 assessed valuation up to $25,000.00 or over, which entitles

(Continued on Page Eight)

BIG GROUP OF S. F. BUSINESS MEN COMING

A large group, including members of the San Francisco mining and stock exchanges and financial and industrial men from the Bay area are expected to arrive in Grass Valley and Nevada City this coming week end to visit centers of mining activity in the district.

Some of the party will arrive by automobile Saturday while others will travel by boat as far as Sacramento, completing the trip by car.

Local mining men and members of the Twin Cities Chambers of Commerce have been requested to be on hand to greet the excursionists and arrange for their inspection of a number of active mining properties.

Visitors at the home of Rev. and Mrs. H. H. Buckner are their daugh-ters and families, Rev. and Mrs. C. E. Polhemus and daughter of Wisconsin, and Mr. and Mrs. H. G. Lyons and two children of San Diego.

At the home of Mr. and Mrs. J. Ghidotti; on Prospect Hill in Nevada City, there is a late bearing variety of pear covered with white blossoms. The tree flowered earlier in the season and the late cold spring froze the early blossoms.

HEY! SCOUTS ITS ONLY 13 DAYS TO CAMP PAHATSI

Thirteen days until Camp Pahatai starts with its good times, exploration hikes, swimming and boating for the Scouts of the Tahoe Area Council. Letters from one Scout to another have begun to fly back and forth over Placer and Nevada counties to find out if acquanintances made at former camps will be back this year. Eight Scouts of Troop No. 19, Auburn, already have registered. So far this is the most from any one troop.

Five of the campt staff met Monday night to go over new camp plans and the daily program which has been changed somewhat. The morning swim will be divided into two periods, one for the class of men-swimmers and Life Saving and the other for the majority of the Scouts for improving their swimming ability. Nature and handicraft will be both morning and afternoon. Every aid is planned this year to assist Scouts passing tests so they may advance a rank during their camp stay.

Sixteen new hat honors have been added to the former list of thirty-four. These insignia stamped in colors on the white camp hats indicate proficiency in these 50 different accomplishments. Last year over 2000 of these insignias were awarded, an average of 20 per Scout.

To aid some Scouts in attending camp, Scout Executive Harris Ricksacker will accept at current prices the following food as payment of the Scout camp fee provided arrangements are made with him personally or by letter by June 27th. They are: eggs, chickens, potatoes and some vegetables.

Last Saturday was the first time this year that a car could get into camp. Work was performed on the kitchen range, water system and the lake dam. It is expected that next Sunday, Scouters will place the water system in operation, fill in the front porch, repair the dam and further complete the swimming and boating dock.

VOTE NEXT TUESDAY

Momentous decisions are to be made by the people next Tuesday, June 27, and every one with any sense of civic pride or responsibility should go to the polls and help to make those decisions for California.

In another column of this newspaper County Assessor J. M. Hammill tells what Proposition No. 1, a state constitutional amendment, will mean to Nevada county. On Pages 4 and 5 of this issue the Board of Supervisors of this county are appealing to the voters of this county, to vote "Yes" on Proposition No. 1, and "No" on Nos. 9 and 10.

Proposition No. 1 if adopted will lighten the tax load that every owner of real and personal property now carries in Nevada county or anywhere in California. It is estimated by the State Board of Equalization that the average reduction in the tax payer's annual bill will be $1.63 for each $100 of assessed value.

Propositions Nos. 9 and 10, would, if carried, deprive Nevada county of the $300,000 appropriation that has been made to complete the upper part of the Tahoe-Ukiah Highway. These two initiative measures provide that old state highway bonds voted by the people at the inception of our State Highway program, many years ago, shall be paid out of the gas tax fund now devoted exclusively to highway maintainance and expansion.

Nos, 9 and 10 are merely the first of a series of attempted raids that will be made from time to time in the future. If carried it will mean without a shadow of a doubt, the eventual destruction of our splendid state highway program.

To saddle that old debt on the car owner today, heavily burdened as he is, would be an economic outrage. From a practical standpoint the Nevada county car owner voter faces the alternative of shouldering a burden of which he is already paying his just share, and thereby losing $300,000 scheduled to complete a highway vital to this section, or retaining that money, completing this beautiful highway, and attracting through this county thousands of motor tourists, thereby enriching a section that needs and deserves it, because of its great natural advantages as a summer and winter playground. We ureg a "No" vote on Nos. 9 and 10.

The Nevada City Nugget believes that interests of all California citizens will be best served by casting a ballot next Tuesday (June 27) marked as follows:

	Yes	No
1. Taxation (Senate Constitutional Amendment No. 30)		X
2. Unemployment Relief Bonds		X
3. Regulating and Licensing Horse Racing	X	
4. Exempting Non-Profit Educational Institutions From Taxation	X	
5. Re-Assessing Property Damaged by Earthquake in Los Angeles and Orange Counties		X
6. State Bonds for Refinancing Irrigation and Reclamation Districts		X
7. Declaring Effective Dates of Acts of Legislature (1933 session only)		X
8. County Government		X
9. Diverting Gasoline Tax Funds for Biennium Ending June 30, 1933	X	
10. Diverting Gasoline Tax Funds for Biennium Ending June 30, 1933	X	

Miss Greta Granholm and Harold McAnaw of Sacramento motored to Nevada City last Friday evening to see Miss Beth Young graduate.

A full shift resumed work at the Idaho-Maryland mine, north east of Grass Valley Wednesday, following several days closing of operations on the lower level to permit adjustments in the hoisting equipment.

Operations on the higher levels and on the surface were not interrupted, and the mill continued its usual three shifts.

PERSONALS

Mr. and Mrs. A. Wisker of Sacramento are spending a few days in Nevada City with her sister, Miss Alma Marsh.

Rev, C. E. Polhemus, son-in-law of Rev. and Mrs. Buckned, will preach in the Methodist church Sunday.

Now You Can Have That Vacation Cabin

inexpensive--comforfable--durable

There is a touch of the primitive in all of us. We like to get out in the open now and then and "rough it." But with all our "roughing it," we want our measure of comfort. At the end of a tired day we want a comfortable cabin near at hand.

The cabin you build to return to week-end after week-end, year after year, as your vacation home, must be more than a shelter. Its chief requisites should be convenience, comfort and durability. And it should be economical to build.

AMER. SMELTING, SALT LAKE, BIDS $25 FOR GOLD

Word received here yesterday that the American Smelting & Refining company was bidding $24.86 an ounce for gold at El Paso and $25. at Salt Lake City created joyful speculation among the mining fraternity.

Absence of any official indications affecting te trend of gold values has hitherto acted as a brake on mining activities. But such action on the part of the big purchasing interests is seen in the light of an assurance of appreciated price levels, with consequent acceleration in mining developments.

Summer came around the corner
And she said to me,
"What's the matter with your garden?
Looks neglected can't you see?
Make some GARDEN SEATS and BENCHES,
Place a stout CHAIR here and there,
Give the rose a nifty TRELLIS
And the FENCE some extra care.

Summer came around the corner
And she said to me,
"I am bringing insects with me—
There's a fly now, can't you see?
Put SCREENS on your doors and windows
Keep obnoxious winged things out,
Thus promoting peace and comfort,
And good health, beyond a doubt."

Summer came around the corner
And she said to me,
"Operate on old Depression,
That is easy, can't you see?
Cut his head off, take his eye out,
Now you've got PRESS ON—sublime!!
Isn't that a regal slogan
For the good old summertime?

A. M. C.

LUMBER TALKS

Our City is on the way everyday, for better and not for worse. Increased inquiries for lumber and building materials are positive proof that people both in Nevada City and surrounding country are building-minded.

Lumber prices are not going down—POSITIVELY, they are advancing.

We are interested in the growth of our City and adjacent territory. Come in and let us help with your building plans. If inconvenient to call, please phone 29 and we will call.

Nevada County Lumber Co.

"When you deal with us, we both profit."

To The Voters Of N

Your board of county supervisors unanimously endorses Propositi
make their decision next Tuesday, June 27th.

The sole purpose of this amendment is to provide relief to taxpa
The State Board of Equalization estimates that if this Constitution
$1.63 upon every hundred dollars valuation of his assessment.

Your board of supervisors believes that the present tax system is
of this county, no matter what measures of economy we may adop

We therefore appeal to every voter and taxpayer in Nevada Coun
day, June 27th, and especially urge registered voters to go to the

Two other measures in which your board is especially interested i
sion of money from the state gas tax fund to the purpose of payi
general fund. We strongly urge a "NO" vote on these two measur
of $300,000 which has been set aside for completing the work o
can tell when it will be completed. This highway is of such vital im
his or her ballot against this measure. In addition to this conside
if successful, will establish a precedent, which may eventually lead
gram. We urge a "NO" vote on Nos. 9 and 10 on the ballot.

BO

FRIDAY, JUNE 23, 1933

Of Nevada County:-

ses Proposition No. 1 on the ballot upon which the voters of California will

lief to taxpayers upon common property, particularly real estate of any kind. Constitutional Amendment is passed, it will cut the tax bill of every citizen sessment.

ax system is outworn and offers no relief, now or in the future, to taxpayers ve may adopt.

Nevada County to vote "YES" on Proposition No. 1, at the election next Tues- o go to the polls and vote.

interested in are No. 9 and 10 on the ballot. These two provide for diver- pose of paying state bonds, which have heretofore been paid from the state two measures, for if they should pass it seems almost certain that the fund the work on the Ukiah-Tahoe Highway will NOT be available, and no one such vital importance to Nevada County that we hope every voter will cast this consideration, which is largely local, the attack on the state gas tax fund, entually lead to the complete undoing of our splendid statewide highway pro- allot.

BOARD of SUPERVISORS
NEVADA COUNTY

Mr. Humphrey and two partners have started developing a part of the W. P. Clerkin gravel property near Birchville.

Lester Head and family of the bay region visited Mrs. Head's aunt, Mrs. Charles Guenther and husband, in Nevada City last Sunday.

CITY COUNCIL LOOKS AT SWIM POOL SITES

The city council for the past few days have been examining possible sites for the municipal swimming pool. They are now in a position to ascertain from owners the prices asked and discuss all phases of the project. Some members of the council are in favor of making the swimming pool a first step toward a recreation park where other sports activities may be carried on besides those of and acquatic character.

o

Mr. and Mrs. Carroll Searls spent the week end in Graniteville.

DOWNIEVILLE ANGLER HOOKS 6 POUND TROUT

While fishing in Downieville, from the bridge that crosses the river in that city, Lawrence Nessler yesterday hooked a six pound Lochleven trout. Seeing is believing and half the citizens of Downieville viewed the fish, plus Christian Andersen, representing the Nevada City Nugget.

o

Friends of District Attorney W. E Wright are glad to see him about, again, partially recovered from the serious illness which has kept him confined for the past fortnight.

SAVE YOUR . . . . Homes And Farms!

California is face to face with a tax crisis which involves the welfare, if not the very existence, of millions of farmers, home-owners and business men.

Taxation of property has actually become confiscation!

There is only one answer . . . .

Lighten the Load

Proposition Number 1, the Riley-Stewart tax relief plan, provides real relief.

It guarantees:

1.—An immediate reduction of 38 MILLION DOLLARS in taxes on real property—a 20 per cent slash in the tax bills of homes and farms!
2.—Strict limitation of state and local spending, halting governmental extravagance.
3.—Return of utility property to local tax rolls—taxed on the same basis as common property—after January 1, 1935, making another big saving for general taxpayers.

If you want tax equality, tax reduction and strict economy . . . . .

VOTE "YES" ON PROPOSITION NUMBER 1

[Special Election, June 27]

LEGAL NOTICE

NOTICE OF TRUSTEE'S SALE

WHEREAS, default has been made in the payment of the indebtedness secured by, and in the performance of the covenants contained in, that certain Deed of Trust dated February 14, 1923, made, executed and delivered by JAMES F. DUNN, also known as J. F. Dunn, and ELLEN DUNN, his wife, as Trustors, to BANK OF ITALY, a corporation, as Trustee, to THE CALIFORNIA JOINT STOCK LAND BANK OF SAN FRANCISCO, a corporation Beneficiary, which Deed of Trust was recorded in the office of the recorder of the County of Nevada, State of California, on February 15, 1923, in Book 3 of Trust Deeds, at page 127 et seq., Nevada County Records; also recorded in the office of the recorder of the County of Placer, State of California, on March 3, 1923, in Book 195 of Deeds, at page 178, Records of Placer County; and

WHEREAS, the lawful owner and holder of said Deed of Trust and the debt thereby secured has applied to and directed the Trustee under said Deed of Trust in writing to execute the trust by said Deed of Trust created, and to make sale pursuant thereto; and

WHEREAS, Notice of Breach of the obligations of the Trustors has been recorded as is provided for by law, and more than three months have elapsed since the said recordation, and said Trustee deems it best to sell said premises and estate as a whole now remaining subject to said Deed of Trust in order to fulfill the purposes thereof.

NOW THEREFORE, NOTICE IS HEREBY GIVEN that on Thursday the 6th day of July, 1933 at the hour of 10 o'clock a. m., thereof, at the front door of the Nevada County Courthouse, situated in the City of Nevada City, County of Nevada, State of California, the BANK OF AMERICA NATIONAL TRUST AND SAVINGS ASSOCIATION, a national banking association, as Trustee, will, under and pursuant to the aforesaid Deed of Trust, sell at public auction to the highest bidder for cash in United States gold coin, the following described real property, mentioned in said Deed of Trust, situated in the Counties of Nevada and Placer, State of California, and more particularly described as follows, to-wit:

Southeast quarter (SE¼) of Section Twenty-four (24); East half (E½) of Northwest quarter (NW¼) and all of Northeast quarter (NE¼) of Section Thirty-six; Township Fiftenn (15) North, Range Eight (8) East. M. D. B. & M.

Lots Two (2) Three (3) and Four (4) of Southwest quarter (SW¼) of Section Eighteen (18); Lots Two (2) and Three (3) of Northwest quarter (NW¼) and South half (S½) of Lot One (1) and Lots Two (2) and Three (3) of Southwest quarter (SW¼) of Section Nineteen (19); South half (S½); South half (S½) of North half (N½); Northeast quarter (NE¼) of Northwest quarter (NW¼); West half (W½) of East half (E½) of North half (N½) of Northeast quarter (NE¼) and East half (E½) of West half (W½) of North half (N½) of Northeast quarter (NE¼) of Section Twenty-nine (29); East half (E½) of Southeast quarter (SE¼); lots one (1) Two (2) and Three (3) of Northwest quarter (NW¼); North half (N½) of Lots One (1) and Two (2) and all of Lot Three (3) of Southwest quarter (SW¼) of Section Thirty (30); Northeast quarter (NE¼), North half (N½) of Southeast quarter (SE¼); Southwest quarter (SW¼) of Southeast quarter (SE¼); South half (S½) of Lots One (1) and Two (2) of Northwest quarter (NW¼), Lot Three (3) of Northwest quarter (NW¼) and Lots One (1), Two (2) and Three (3) of Southwest quarter (SW¼) of Section Thirty-one; Southeast quarter (SE¼) of Northwest quarter (NW¼) and North half (N½) of Northeast quarter (NE¼) of Section Thirty-two (32); Township Fifteen (15) N. Range Nine (9) East M. D. B. & M.

ALSO all of those parcels of land situate in the County of Placer, State aforesaid and described as follows:

Lots One (1), Two (2), Four (4), Five (5), East half (E½) of Northeast quarter (NE¼) of Lot Eleven (11); North half (N½) and North half (N½) of South half (S½) of Lot Twelve (12); North half (N½) of West half (W½) and North half (N½) of South half (S½) of West half (W½) of Lot Thirteen (13); East half (E½) of Lot Twenty Four (24) and all of Lot Twenty-five (25) of Section Six (6); Township Fourteen North (14N) Range Ten (10) East M. D. B. & M.

EXCLUSIVE of portions in Count Roads and right of way in Pacifi Gas & Electric Co. and also exclu sive of mining rights of J. M. Thoma or his successors in interest in and to South half (S½) of Lots One (1) and Two (2) of Southwest quarte (SW¼) of Section Nineteen (19) and North half (N½) of Lots One (1) and Two (2) and Lots Three (3) of Northwest quarter (NW¼) and Lot Three (3) of Southwest quarter (SW¼) of Section Thirty (30) Township Fifteen (15) North, Range Nine (9) East M. D. B. & M.

AND ALSO EXCEPTING the mineral below a plane 150 feet below the surface of North half (N½) of Northwest quarter (NW¼) of Section Nineteen (19), Township Fifteen North, Range Nine East with right to remove same without disturbing surface.

TOGETHER with all other rights of every kind and nature, however, evidenced, to the use of water, ditches and canals for the irrigation of said premises to which the trustors or said premises are now or may hereafter become entitled and also together with all shares or rights, whether represented by certificates of stock or otherwise, in any canal company or water user's association attached to said land for the benefit thereof, now owned or hereafter acquired by said trustors.

DATED: San Francisco, California, May 15, 1933.
BANK OF AMERICA NATIONAL TRUST AND SAVINGS ASSOCIATION, a national banking association, as Trustee.
By ROY PULLIAM,
Vice President.
Publication June 9—16—23—30.

DIAMOND MATCH TO ERECT FINE BIG BUILDING

The Diamond Match company will start immediately to build a new combined office building and warehouse at the corner of Bennetts avenue and Main streets in Grass Valley. This edifice will replace the old structure which was wrecked last winter by the roof load of snow. This announcement was made yesterday by I. E. Brink, superintendent of retail yards for Diamond Match.

The new building will provide a large well appointed office directly on the corner with big plate glass windows and all modern conveniences. The second story and a large proportion of the ground floor will be used for warehousing lumber and bulding supplies.

POST OFFICE VACATIONS

Miss Mary Meservey, assistant postmaster, expects to take her vacation sometime in July. Under postal regulations each member of the postoffice staff is entitled to fifteen days' annual vacation, not including Sundays and holidays. Through inadvertence, another member of Postmaster Scadden's staff was referred to in these columns recently as "assistant". Miss Meservey is assitant postmaster.

Mr. and Mrs. Frank Guenther returned Monday evening from a short vacation spent in the bay region visiting relatives.

A New Deal For Liver Sufferers
Don't be misled any longer. Calomel, salts, oils, mineral waters, laxative pills, herb teas, powders, etc., have no effect whatever on the liver. There are only two generally recognized substances which actually cause a sluggish liver to increase its production of bile. Sargon Soft Mass Pills contain both of them.
You can't feel well and strong unless your liver furnishes plenty of fresh bile every day. Without bile food doesn't digest properly—it just ferments and decays—Constipation, gas, sour stomach, headaches and nervousness follow.
Unless you have tried Sargon Soft Mass Pills you can have no idea of their effect—You feel stronger, healthier, happier—life and color return to faded eyes and cheeks—appetite and digestion improve rapidly.
Only 60c for a full 30-day treatment. At your druggist, or write G. F. Willis, Inc., Atlanta, Georgia.—(adv.)

PLACER MINE ACT

the owner to 5 votes. If less than $5,000.00 the owner is still entitled to one vote.

No mine owner can be forced into the district if he does not desire to participate.

BONDS MAY BE ISSUED

The act provides for the issuance of bonds which bear not more than 8 per cent interest.

The district may also generate and sell power or sell the energy of the water and let someone else genrate the power from it. Tthe act also provides for the Dissolution of the District.

The salability of the bonds of the district to provide funds to procure water for mining and storage facilities for the tailings depends on how valuable the mining properties are and the ability of the management.

This act sets up means and points the way for the small fellow to get together and mine and united they can also repel blackcailing racketeers who, for fifty years have robbed them. They are too much for the single operator, but they will be fair game for a district.

HOW TO ORGANIZE

To organize a placer mining district, first ascertain where you can develop a water supply to operate your mine, find out where you can successfuly and economically store its tailings. Then get up a list of other mine operators who could use the same facilities. Get together and figure out how many of you want to go into the organization. Then have an engineer figure your costs and an attorney to help you go through the legal formalities and you're on your way. This bill is not a royal road to wealth, but a safe feasible one for Placer Miners with faith, patience and the desire to get the values from their mines.

The writer wil lbe glad to give preliminary advice to the first group to organize.

On your way!

JUNE Mining Developments

ed.

Values to date are low, but definitely encouraging toward further exploration.

RUBY

The Sierra Pacific Gold, Ltd., is rushing the development of the famous Ruby gravel mine between Forest and Downieville, with 12 men and they expect to have it on a production basis this summer, according to C. E. Gilman, general manager and consulting engineer.

Twelve up raises have been driven to the channel from the 2,000 foot tunnel and at present they are sinking on a quartz ledge that carries good values.

C. L. Best of San Francisco, is president; G. C. Dickerman is mine superintendent, with E. J. Engeman as foreman.

BELLE UNION

Superintendent Victor Grace is moving the hoist and headframe at the Belle Union mine south of Grass Valley, from the vertical shaft to a new incline shaft that has holed through at the surface.

This incline follows a vein that had been cut at the 60 foot point in the former vertical shaft.

Nine men are employed at the property.

FRENCH CORRAL

Superintendent Ben Maddox of the Frenh Corral Mining Company, near French Corral and 18 miles north of Nevada City, has installed a three-drill compressor at its gravel property. Gold recovery equipment has been ordered from Oakland.

At present the company is using gasoline to generate power.

Fourteen men are employed at the property.

MADAM QUEEN

About June first the Madam Queen Mining Association resumed the driving of a water grade tunnel to tap the old Howland Flat, Port Wine channel.

The work had passed the 262 foot point and required 80 feet to go.

Twelve men are employed at the property according to M. D. Howse one of the three directors.

ANCHO-ERIE

A crew of six men are employed at the Ancho-Erie gold mine at Washington in mining and milling the ore. Plans are to add more men before long.

The California Consolidated Mines that comprise the Constitution and Federal Loan east of Nevada City in the Willow Valley section have completed the stringing of the mile of wire to bring electricity to the property. At present a crew of four men are coupling up the machinery with the power line, and putting in a compressor and hoist. A group of San Francisco people interested in the properties are expected up within a few days. Phil Folck of Grass Valley is superintendent of the mine.

CUSTOM MILL

The custom mill operated by the West Mines Corporation, on the Buffington property west of Nevada City, is running part time crushing gold bearing ore for parties testing lots of ore, or for prospective mines in which some ore has been found, but not enough to warrant erection of a mill.

IOWA HILL

At the Iowa Hill gold mines, a gravel property twelve miles east of Nevada City, they are running a drain tunnel and are now in 1200 feet. They will soon raise to reach a low grade channel known to exist at this location and sufficient gold can be taken out to pay to operate.

This property adjoins the old Blue Channel mine where Lyman Gilmore and his brother C. H. Gilmore, worked about seven years ago. It also adjoins the well known old Morning Star mine which was operated by Coleman Brothers years ago and on which there is a 4000 foot tunnel.

Mr. Gilmore states that in the latest operations at the Iowa Hill, they will do development work on the rim of the channel in order to take out enough gold to drive a tunnel into the known channel in the Blue Channel mine.

Those interested in the Iowa Hill are Lyman Gilmore, C. H. Gilmore, of Nevada City; O. C. Poff, and Dr. William E. Schwartz of Los Angeles.

SAN JUAN MINE

The North San Juan mine, located near the town of North San Juan, has just shipped 100 tons of ore from its property for tests and looks promising according to reports. Ledge matter on the surface is over 80 feet wide. The property comprises over 200 acres of ground. The Bradley interests, that are reopening the Spanish mine at Washington, are developing this ground. At present they have a crew of 15 men employed. C. J. Lyser is superintendent.

QUEEN LIL

Indicative of the increased mining activity in the district, the Queen Lil mill of West Mines Corporation, located just outside the city, has been operating recently on several lots of custom ore. In addition the bins are being made ready and other preparations are in process of completion for the treatment of ore from the company's Canada Hill mine and the Ragon mine, which are expected to be in production in the near future.

CANADA HILL

With the shaft unwatered to a point below the 500 level, work at the Canada Hill mine of West Mines Corporation will shortly be directed to the repairing of the sixth level in preparation for removal of a considerable block of ore reported as already exposed there.

Unwatering operations will be continued at the same time in order that as soon as possible a drive at depth may be made on the St. Louis vein, which has remained untapped in the Canada Hill property.

RAGON MINE

Rapid progress continues at the Comstock Gold Point Mines company's Ragon mine two miles northwest of here. Initial shaft timbering has been completed and new hoist is being installed, replacing the small temporary plant. Compressor, pump and other equipment is already on the ground and good headway has been made in clearing the caved portion of the old shaft. Open shaft is expected to be reached soon and it is believed the unwatering will require little time. Ore already exposed in the mine will be treated at the Queen Lil mill and the development plans call for early driving on the famous Merrifield vein.

LAVA CAP MINE

One hundred tons of equipment has been shipped from the north and will soon arrive in Nevada City for the Lava Cap mine. It includes complete 200 ton ball mill, motors, hoisting apparatus, etc. Rapid progress has been made at reopening this old property since it was started a few months ago.

PILGRIM MINE

The Pilgrim mine located near the famous old 16-to-1, at Alleghany, is now operating a force of men on its valuable holdings and plans are being rushed for the installation of a 100 ton mill on the property.

It comprises 343 acres of patented land.

The ore bodies on the Pilgrim range in width from five feet to 50 feet and the main vein is traceable on the surface for nearly a mile.

Gorge Goeppert, Jr., of Piedmont is president, of the Pilgrim, Frank Myrback executive vice president in charge of operations, Howard Hall, Oakland, secretary-treasurer; while Calvin H. Barkdull is consulting engineer. All of these men are prominent business men of the bay region.

LUCKY STRIKE MINING CO.

The Lucky Strike Mining Company, has acquired 335 acres of ground adjacent to the North Star anm Empire Mines, east of Grass Valley.

A 55 foot shaft, which has uncovered a 17 foot vein of $3.50 ore will be deepened and a new hoist, compressor, headframe and toher equipment installed to carry on deeper exploration.

According to manager L. M. Dull, the property is traversed by the same dike in which the North Star recently opened a 73 foot width of $12 ore on its 400 foot level.

EMPRESS

The Empress mine, has just about completed the sinking of their shaft to the 1000 foot level. They will now sink another 40 feet for a sump.

Cross-cutting will start now for a distance of 60 or 80 feet to cut back to the vein. In sinking operations the shaft was cut to facilitate economical operation, leaving the vein a few feet above the present level.

Ed C. Jacobs, superintendent, is in Los Angeles on business connected with the property.

There are about 25 men employed at the property working in three shifts.

AND SETS NEW STANDARDS OF BEAUTY, QUALITY, CONVENIENCE AND ECONOMY

We want you to see this new Frigidaire. With its smooth flowing lines, panelled design and sparkling lifetime porcelain it introduces an entirely new trend in refrigerator style and beauty.

Never before have so many conveniences been assembled in one refrigerator—¼ more food space with no increase in outside dimensions—automatic tray releasing that causes the ice trays to float out at the touch of a finger—shelves that are adjustable—a frozen storage compartment—double Hydrator capacity—interior light—automatic defrosting—and many other features that save time, work and trouble.

The efficiency of Frigidaire's famous two-cylinder unit has been increased *twenty per cent*. It uses only a small amount of electricity—no matter how hot the weather.

In its chromium fittings, porcelain cabinet and powerful mechanism, the Super Series Frigidaire reflects that quality which means inbuilt dependability and longer life in the home. Undoubtedly, these are the finest Frigidaires we ever have had on our showroom floor. Stop in and see them today.

Delivered to your home in Nevada City or Grass Valley in our regular delivery zones.
